DRAW, the anticipated EP from Lower East Side hellions **The Liza Colby Sound**, has finally been unchained and set out into the wild. The four song EP features singles “My World” and “Cryin” as well as a hidden track added into the mix to add a little oomph to your listening party.

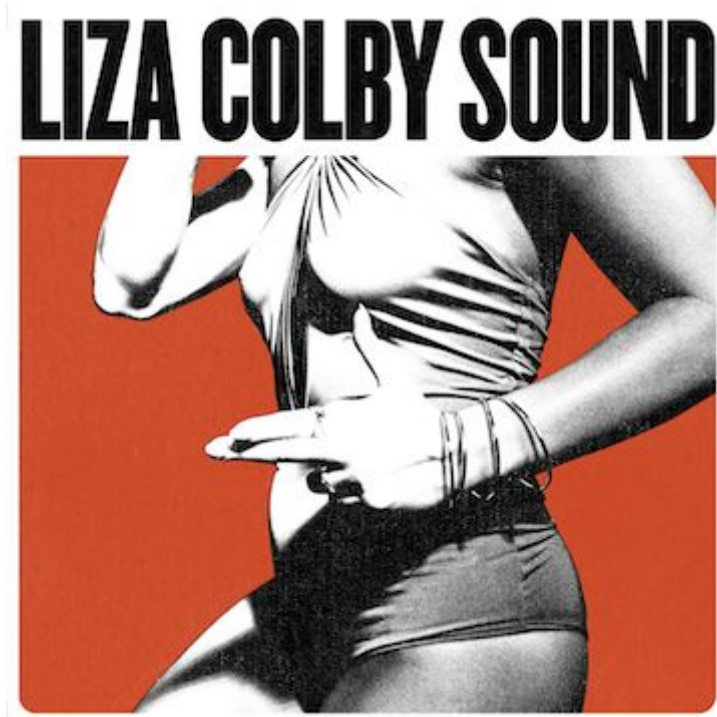

The 4-song EP crackles with fiery musicality, muscular grooves, and moments of reflective soul-ballad beauty and it also represents a brave new future. “The title ‘DRAW’ means it’s time to pull the trigger.” Liza says with graceful defiance. “We will Mach Schau.”

DRAW is available to purchase on digital platforms as well as in physical form. 10” copies can be found at future Liza Colby Sound shows or online.

MORE ON THE LIZA COLBY SOUND:

Part shaman, part seductress, Liza Colby was born to earn the Queen Of Rock N' Roll mantle. Her music is for sinful Saturday nights, and redemptive Sunday mornings. It's heartbreak music; it's music of sexual liberation; it's music for when it matters most.

The Liza Colby Sound includes a trio of musicians who have played for almost two decades. These formidable instrumentalists boast impressive resumes that include working with Ozzy Osbourne, Rick Derringer, Edgar Winter, Raging Slab, Suzanne Vega, Garland Jeffreys, Lenny Kaye, Jim Carroll Band, the Del Fuegos (featuring Dan Zanes), The Paley Brothers, Denis Leary, and Joey Ramone, among other well-known names. These all-stars are also known for scoring music for film and TV, most recently they've contributed to the Denis Leary show *Sex & Drugs & Rock & Roll*.
